Subject: Re: For Review: PFAS Action Plan

OCSPP is fine with this document as it pertains to our jurisdiction. Also the whole piece has come a long way. Congratulations on getting it this far!

Deliberative – Pre Decisional

All,

For your review and input, please find the revised PFAS Action plan. This version includes recommended edits/responses to the most recent round of interagency edits/comments that we received on Thursday evening. We met with OMB on Friday afternoon and resolved a number of issues. **Deliberative Process / Ex. 5**

Deliberative Process / Ex. 5

To facilitate your review, the document contains a color scheme for the comments and changed text:

- The GREEN = OMB or other agency partners edits/suggestion accepted with no/little change
- YELLOW = OMB or other agency partner edits/suggestion accepted with varying degrees of edits
- PURPLE = did not accept the edit, added an explanation as to why.
- BLUE = added senior leadership edit

The attached version reflects the following:

- Considered comments from all interagency reviewer comments received, even those that came in late (e.g., FDA).
- Edits/responses from EPA program offices (OECA, OLEM, OPPT, ORD, OW)
- Formatting needs to be fixed prior to finalization.
- Viewing the document as “All Markup” under the Review Tab will allow you to see redline/strikeout and all of OMB’s comments and EPA’s responses. Viewing the document as “No Markup” will provide the proposed final text.

We would appreciate your comments/changes as soon as possible but by Sunday, latest. Our goal is to send OMB a final redline version of the document by Monday morning to facilitate clearance as early as possible on Monday so that we can move into production mode for the planned Thursday release.

Many thanks for your and your staffs' continued responsiveness and support. Please let me know if you need this in a different format or have any questions.

Jennifer
